

**BIOMEDICAL
SYNERGIES**
PROFESSIONAL HEALTHCARE CONSULTING

Founded by tissue and blood banking experts, Biomedical Synergies, Inc. will guide your facility through the pitfalls of tissue management and will achieve regulatory compliance by utilizing our proven methods and software solution. In conjunction with necessary policies and procedures, **TRACS4Life™** tissue and implant management software provides 100% compliance to the Joint Commission tissue standards, increases patient safety, reduces risk and streamlines workflow.

A 360° Solution... *Experience the difference*

TRACS4Life™ Internet Hosted Edition:

- Low up front costs
- Limited IT resources required
- Streamlined configuration
- Software & data are hosted on secure, off-site servers
- Monthly access fee; no additional maintenance costs
- On premise edition also available

To schedule a live, interactive demonstration and to discuss the various pricing and financing options available, please contact:
